LIV's second album HAGE is produced from a place of abundance and expansion, again collaborating that started in 2013 when Thierry Girault (FR) and his family exchanged a busy and crowded European life for a year in Tromsø (NO) with fishing, walks in the mountains - and eventually musical exchange with the locals, Øystein Blix and Liv Hanne Haugen. A little later Alain Kawczak (FR) joined and together they formed the band LIV, which forms a perfect container for them to eat, drink, laugh, create, talk, travel and channel it all into wonderful way through the internationally acclaimed and renowned Sami artist Mari Boine's backing vocal on several tracks), are all present. Layered and fused together to a rich sound-template by the experienced producer Andreas Mjøs (known from a.o. Jaga Jazziz), we hope the music also keeps moving its listeners into surprising landscapes as it has done with us.
