PRIMAL HEURISTICS

## Primal Heuristics

When we create art in the moment, improvising in such a way that we are able to convey our feelings through an instrument, we are innovating and connected to a deep tradition and canon of music. To truly improvise, you cannot stop to think.

Heuristics are mental shortcuts or “rules of thumb” that people use to make judgments and decisions quickly and efficiently, especially when information is limited or time is short.

This record marks our debut with this group. We are excited to share our musical world and hope this record can inspire you to think anew and bring more positivity to the world.
